Saint Edward's University

Austin, Texas

it was the best  
of times . . .

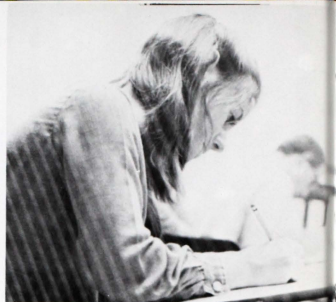

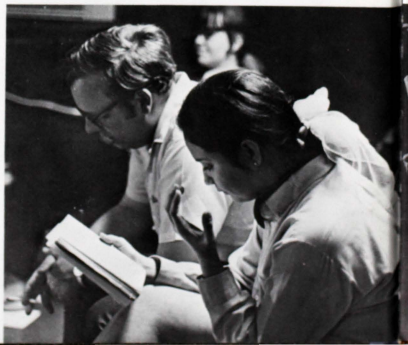

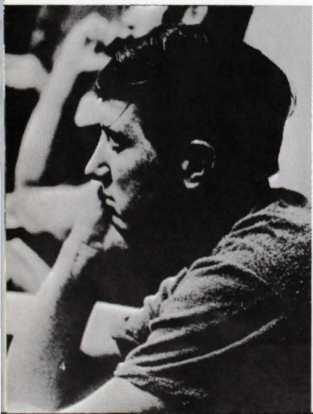

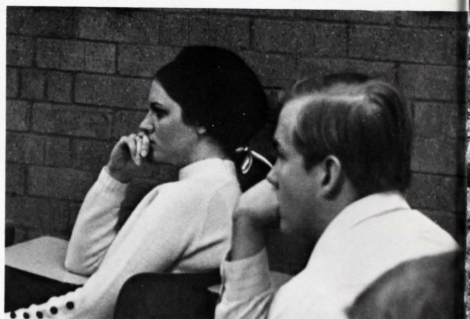

it was  
the worst  
of times . . .

it was the age  
of wisdom . . .

it was the age of  
foolishness . . .

it was the epoch of belief . . .

it was the epoch of incredulity . . .

it was the season of light . . .

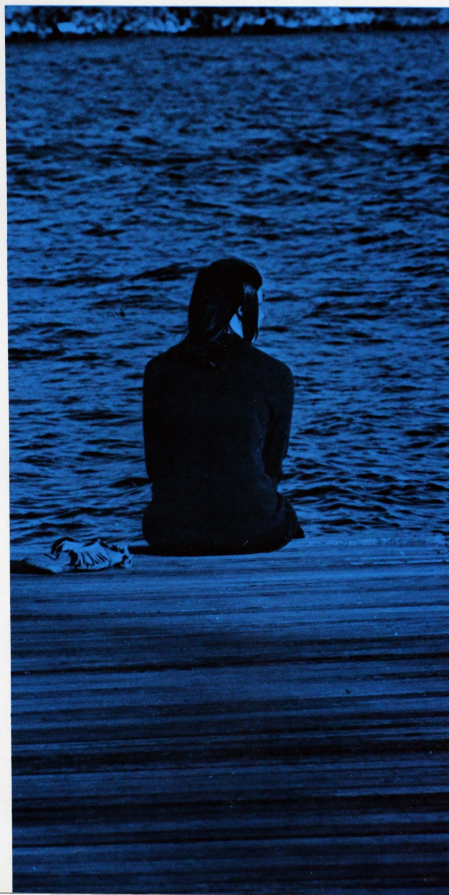

it was the season of darkness . . .

it was the spring  
of hope . . .

it was the winter of despair . . .

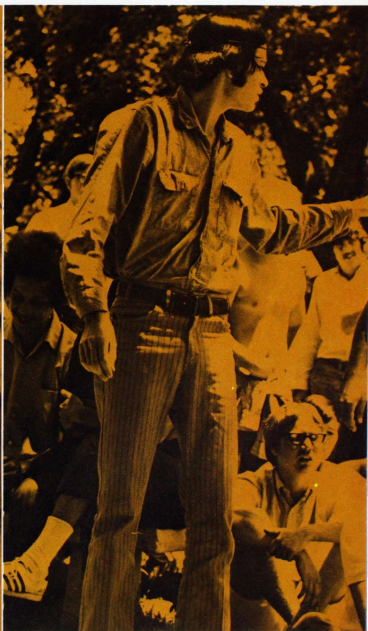

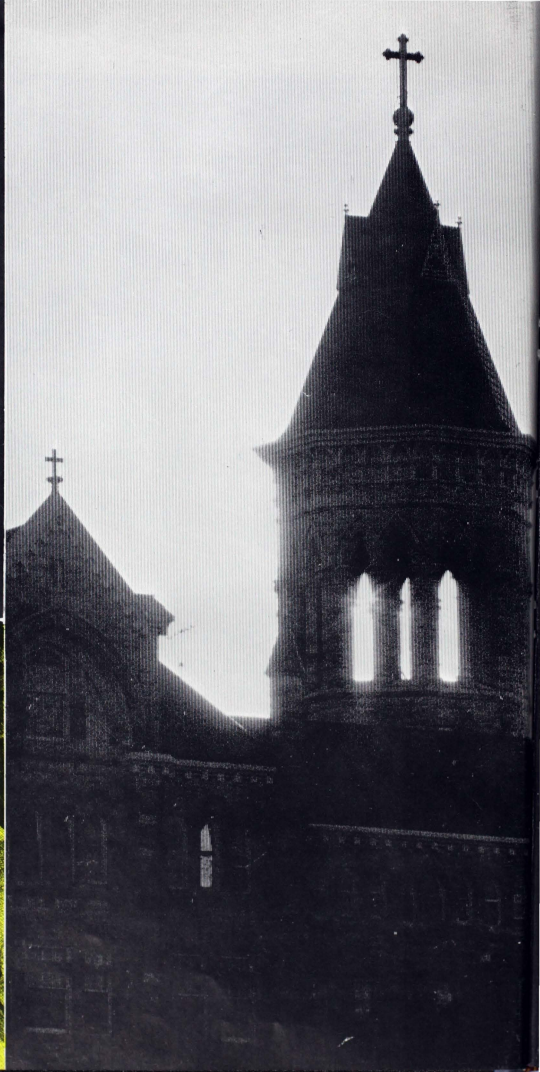

we had everything before us . . .

we had nothing before us . . .

we were all  
going direct  
to heaven . . .

we were all going direct the other way . . .

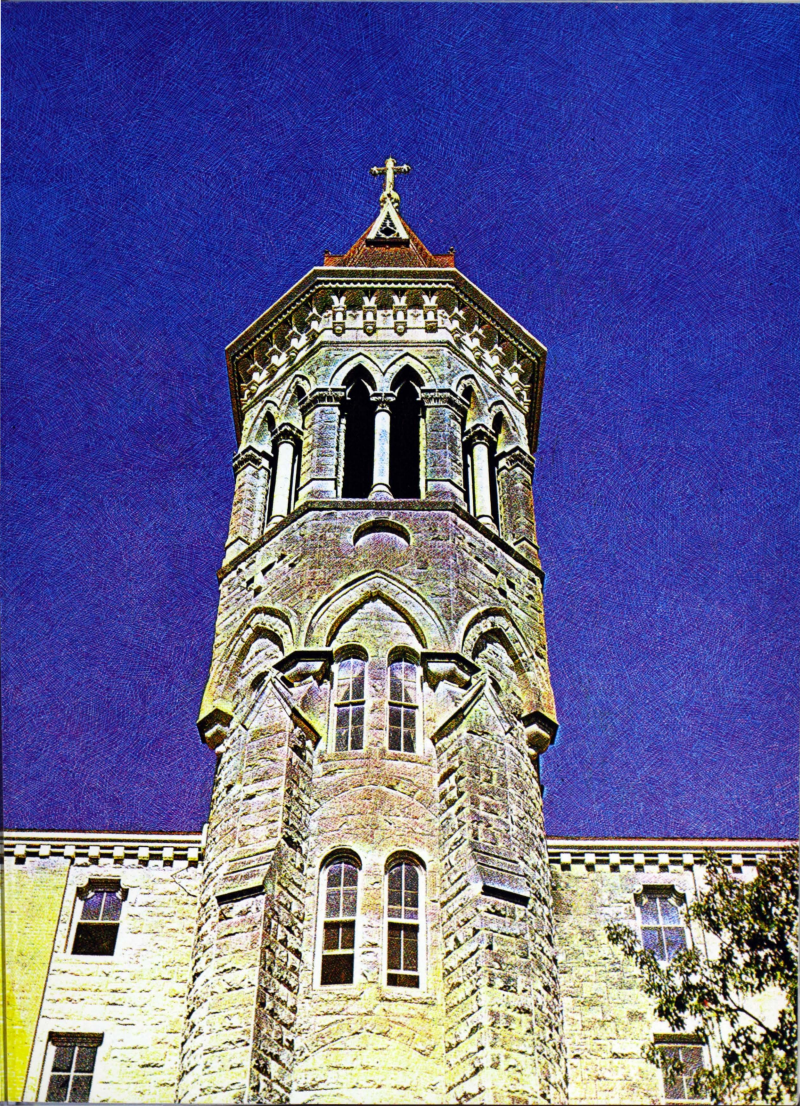

... it was the year of Our Lord 1970 ...

# Board discusses University status

Members of the St. Edward's University Board of Trustees met on Saturday, Nov. 1, from 9 a.m. to 3 p.m. at Lakeway for their semi-annual meeting, the major portion of the meeting being devoted to information and discussion.

Appointment of an Alumni Director was the first point on the day's agenda. Mr. Ed Norris is being considered but his selection depends on whether a replacement can be found for his present position and the change made without loss of continuity. Until a director is appointed Mr. Shaun O'Brien will serve with Bro. Daniel Lynch keeping alumni records.

Other Alumni activities discussed were 1) The effort to organize alumni as recruitment assistants on a local basis; 2) the formation of the "Topper's Club" composed of former SEU lettermen who will help support athletic programs and 3) the Sustainment Drive, which the Alumni will be contacted about at Christmas, and its follow-up.

## Questions of Status

In the Academic area the Board was concerned with the status of the Holy Cross/Maryhill structure. It has been observed that there is a question on campus among the faculty and the students as to the merits of the present program.

Dr. Edgar L. Roy, President, informed the Board that he had acquainted the IHM motherhouse of this feeling during a recent conference in Monroe, Michigan which he and Sister Ann Virginia attended. The Trustees responded in the same manner as did the sisters: the present structure should be carefully studied as to its effectiveness, popularity, financial practicality, and purpose with other options to be suggested and reviewed so as to find the best workable system for this university. Results of this survey will be reported to the Board for a possible decision at their March meeting.

## Low enrollment

Low enrollment in upper class courses was a problem for discussion also under the Academic area. Though a broad range of offerings is essential for an attractive

liberal arts program, this is very costly and it may be that St. Edward's will have to de-emphasize some areas to concentrate on a few others.

According to a two-college approach the academic organization was defined and the difficulties of authoritative decision making under this system were analyzed.

As for potential academic programs there was brought up the possibilities of afternoon and evening educational services for adults, a masters degree in business, and involvement in Austin's junior college needs with Concordia, and Huston-Tillotson.

## Student climate good

In his agenda notes to the Board members on the Student Life area Dr. Roy remarked that the general student climate is good. However, he felt that there is a student restlessness concerning the rumored financial crisis, a confusion over the direction of the colleges, and a questioning of the style of the new administration with a fear that they may pull back the decision-making authority of the students. He expressed a conviction, nevertheless, that a little more time will settle this especially after decisions on the college structure are made.

Counselling and Guidance was next taken into account with the emphasis

being placed on the students who may leave this university.

## Fund-raising

Next on the agenda came the Development area. Included under this heading were plans for a fund-raising campaign, the Sustainment Drive, and continued efforts on the building of a Union-Communication Arts Building. The Budgeted Development Income was outlined along with the anticipated re-definition and re-organization of the Development staff.

Following the Development area came Finance with the Board being thoroughly briefed on the budget, income and expenses, and the steps being taken to improve the deficit situation. Recommendations will be made at the spring meeting by the Finance Committee with regard to the manner in which the projected deficit will be covered.

Concluding the meeting was the election of members to the Endowment Committee which will be in charge of certain funds and property plus working with the Finance Committee on decisions about the deficit.

Assistant Professor of Education

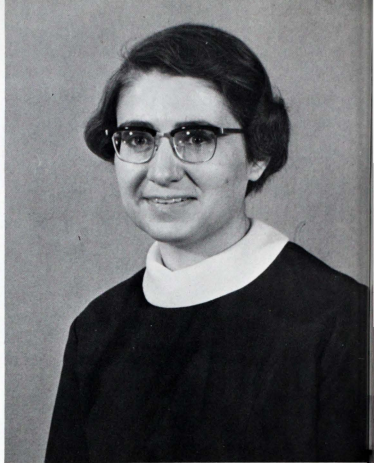

"An education which is geared to making you more fully human adds up to different things for different people. It is not necessarily achieved by meeting the requirements of a prescribed series of courses in a prescribed sequence. Rather, meaningful education is essentially a point of view.

"We are aware that initially, your exploration may be based upon some illusory concept of relevance or perhaps on personal whim. However, we believe that, in ultimately accepting the responsibility for education yourself, your four years with us will best prepare you to assume your place in the increasingly complex world. We'll offer help, we'll open doors, we'll guide whenever required or asked. You will probably make some mistakes and errors of judgment. However, the process of making mistakes may ultimately be the best education of all."

Sr. Madeleine Sophie Weber, I.H.M., M.A.  
Instructor of Psychology

Objectives? "...to attempt to develop awareness that learning is a continuous, life-long process, and that no one has, nor is expected to have, all the answers; to prepare students so that after their formal education is completed they will be able to apply their knowledge of facts, principles and theories by skill in combining and selecting according to the circumstances and situations which they encounter; to do my part toward the development of informed, educated, principled, convinced citizens of adult society."

A photograph of a building with a sign that reads "GYMNASIUM". The sign is mounted on a pole and is positioned in front of a large, dark, rounded structure. The building is white with a dark roofline. A large, bare tree is visible on the left side of the frame. The sky is a pale, overcast blue.

GYMNASIUM

Tom Hamilton

Athletic Director and Baseball Coach

Sports has always been a part of St. Ed's; through it, the student has understood more about himself and his fellow man and has done things he thought he could never do.

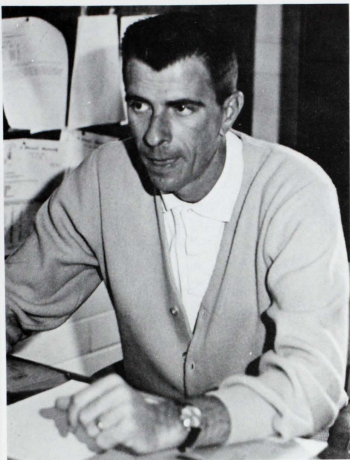

Sports has slowly become a more important part of a St. Edward's student. Coach Hamilton has helped this to come about. He and his staff have put in countless hours into sports at St. Edward's University.

This is a time when the color of a man's skin make no difference—the only thing that counts is that two individuals have challenged each other, and each is striving for the sweet taste of victory.

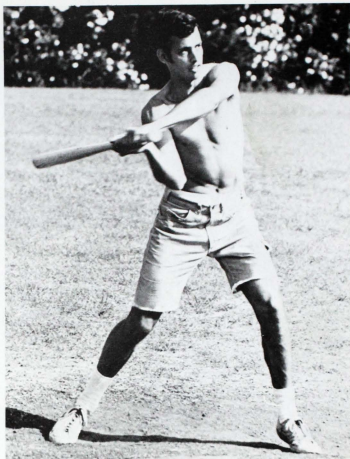

Sometimes, when the outcome had not turned out like we would have wanted it to this year, and defeat had left a bitter taste within us, and the long hours of training did not seem worth it, our disappointments still did not show. We saw defeat but we kept on trying, like true athletes, for we did not fear losing. In the end, our efforts were rewarded. Our wins outnumbered our losses.

This is a summary of the training, the challenge and the outcome at our school.

## 1970 GRADUATES

Come Saturday morning . . .

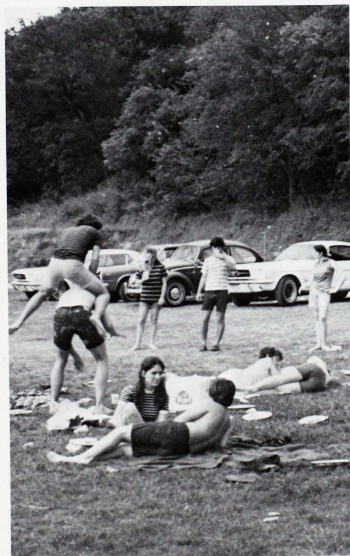

I'm going away with my friends . . .

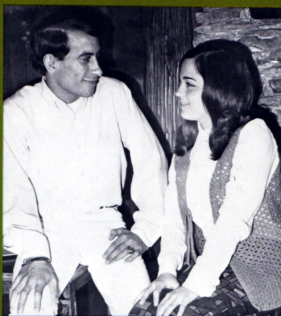

We'll Saturday laugh more than half of the day...

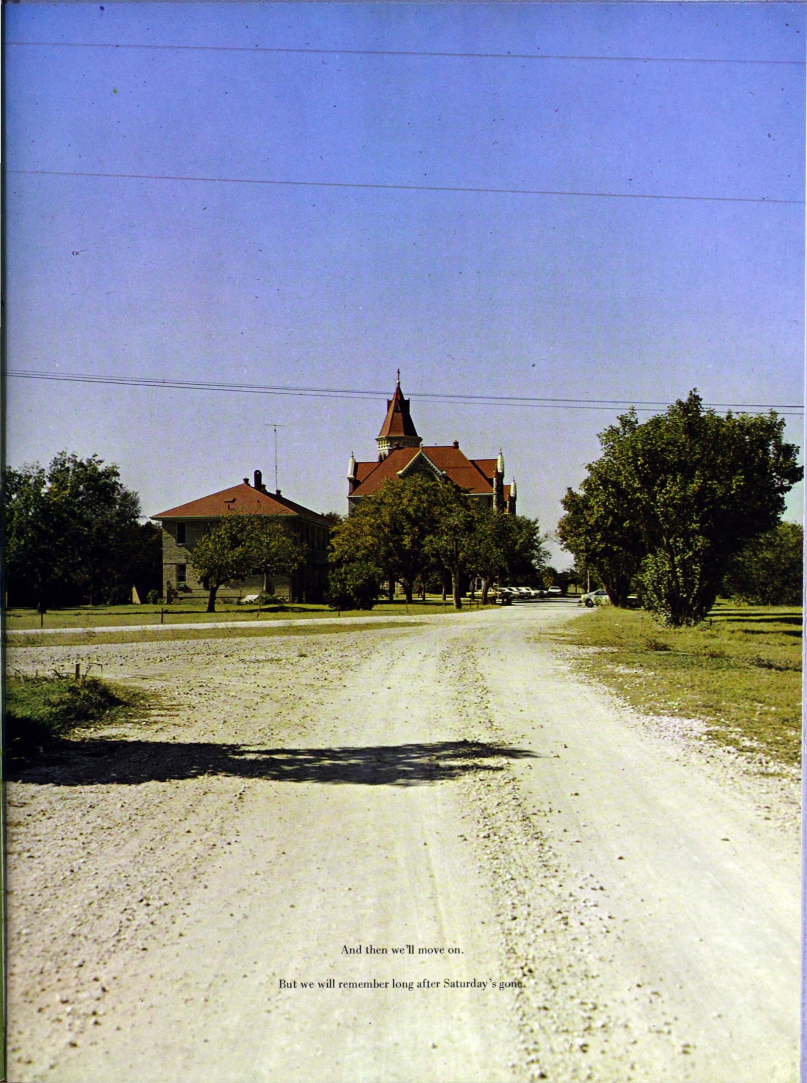

Just I and my friends . . .

Dressed up in our rings

and our Saturday things...

And then we'll move on.

But we will remember long after Saturday's gone.
